Software Engineer | Backend Developer | AI/ML Engineer | Open to Associate PM Roles

SUMMARY

Motivated B.Tech Computer Science (AI/ML) student with hands-on experience building scalable backend systems, REST APIs, and AI-driven web applications. Demonstrated ability to ship end-to-end products — from ML-based recommendation engines to backend infrastructure — improving key metrics by up to 30%. Passionate about the intersection of intelligent systems and product impact. Seeking software engineering or associate product roles at technology-driven organisations.

EDUCATION

Lakshmi Narain College of Technology Excellence

B.Tech in Computer Science — Artificial Intelligence & Machine Learning

- CGPA: 7.43 / 10.0 (Ongoing)

Bhopal, India

Aug 2023 – May 2027

TECHNICAL SKILLS

Languages: Java, SQL

Backend & Web: REST APIs, Supabase, MySQL

Tools & Platforms: Git, GitHub, VS Code,

Core CS Concepts: Data Structures, Algorithms, OOPS, DBMS, OS, System Design (fundamentals)

Soft Skills: Problem-Solving, Technical Communication, Team Leadership

PROJECT EXPERIENCE

Grovio — AI-Powered Internship Recommendation Platform | *Python, Supabase, REST API, ML* 2024

- Architected and shipped a **full-stack AI web application** delivering personalised internship recommendations to **100+ users**, improving opportunity discovery efficiency across multiple domains.
- Designed and implemented **resume parsing, data preprocessing pipelines, and filtering algorithms** to match candidate skill profiles with relevant roles, increasing recommendation accuracy by **30%**.
- Built and optimised **backend services** using Supabase, SQL, and REST APIs — enforcing secure authentication, efficient data retrieval, and reducing API response latency by **25%**.
- Owned product end-to-end: gathered user requirements, defined feature scope, iterated based on feedback — demonstrating product thinking beyond pure engineering.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

GDG On Campus — Campus Organiser | *Google Developer Groups, LNCT Excellence* 2023 – Present

- Organised and led **3+ technical workshops** on software development and AI/ML topics, attended by **100+ students** — building community engagement and knowledge-sharing culture.
- Managed cross-functional coordination between speakers, college administration, and student participants, strengthening programme management and stakeholder communication skills.

Competitive Programming 2023 – Present

- Solved **100+ Data Structures & Algorithms problems** on LeetCode and GeeksforGeeks, consistently strengthening algorithmic problem-solving ability for technical interviews.
